• Zoom •

Hear from Public Defenders across the state about their journey to public defense and learn about opportunities for becoming a defender. Bring your questions and explore ways to gain experience as an intern.

This panel discussion is hosted by the Defender Rising Project. The Defender Rising Project is a collective effort between Gonzaga School of Law, Seattle University School of Law, University of Washington School of Law, and Washington Defender Association. We cultivate the next generation of public defenders while they are in law school.
